# COASTAL BIN™

MADE IN THE USA

In light of the oil spill in the Gulf, Recyclingbin.com introduced and designed the Coastal Bin™ to increase recycling rates around our waters, while raising funds for those hardest hit by this tragedy.

Recyclingbin.com would like to thank the 70 plus customers ranging from individuals to schools to companies who have bought a collective 235 Coastal Recycling Bins. We are proud to announce that with their efforts, we have been able to donate \$1,284 to the National Wildlife Federation's Gulf Oil Spill Restoration Fund.

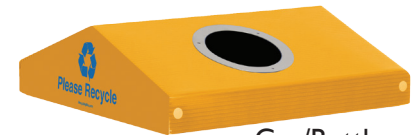

The Coastal Bin™ is a unique arrangement of photography that will not only enhance any facility, but highlight our beautiful coast and exemplify the diverse life in these environments that are so critical to us. This simple collage of coastal photographs is specifically designed to evoke our awareness of the enormous beauty and sensitivity that surrounds us.

- Patented A-Bin™ design assembles in minutes.
- Tapered lid provides clear visibility and repels unwanted objects.
- Unique bag locking system enables single or double sided, multi-sort collection.
- Galvanized steel hardware will not rust.
- Includes high quality printed identification decals.
- Made of 30% post industrial recycled plastic.
- 100% recyclable.
- Printed with fade resistant, UV inhibited outdoor inks.
- The Coastal Bin™ is a low impact, high efficiency product designed to minimize the use of plastic, packaging, and fuel in transit.
